WATERSHED WEEK IN REVIEW

A Peaceful Holidays from LRWA

The Llano River Watershed Alliance Board of Directors wish all of our readers a peaceful holidays.

Watershed Week in Review will begin its seventh year of publication the week of January 8, 2021.

Thanks for caring about the Llano.

Trout Released on the South Llano River

Photos: Andrew Burnard

Texas Parks and Wildlife released 1,100 rainbow trout into the South Llano River at the State Park yesterday. TPWD will again release trout on January 13, 2021.

Trout will be released at Castell and downstream on January 22, 2021 and again at James River Crossing on February 3, 2021.

The trout are not native and will not survive the warmer months to come. Don't wait.

What do you want for Christmas?
Rain Santa. We need Rain!
