

Can the Guadalupe Bass save our Hill Country Rivers?

You bet your bass it can!

Join a network of willing landowners interested in implementing conservation actions at watershed-scales to Increase:

- Water Quality
- Water Quantity
- Riparian Health
- Upland Conservation

Our prized Guadalupe Bass State Fish of Texas is an agile, fast-water fish occurring in an attractive, natural setting.

Preserving & enhancing healthy habitat provides value not only to native Guadalupe Bass but also for individuals looking to promote sustainable land-use activities.

**Wednesday, October 15th
6:30 pm @ TTU Junction**
