

# Watershed Week in Review

Llano River Watershed Alliance

## Spring Break Edition

An abbreviated Spring Break edition of the newsletter this week... Not a lot of news to report, but some upcoming events to keep in mark on your calendars (see page 2).

A great opportunity to connect the dots between our land management practices and our rivers and springs will be Saturday, April 30<sup>th</sup> at Kerr Wildlife Management Area (WMA). Noted land stewardship author, Jim Stanley, along with Kerr WMA biologists will join us as we tour the facility and see firsthand what practices have been most successful in protecting our land and water.

## Not so Perfect Winds

As mentioned last week, tornados touched down in the watershed at both Cleo and Fredonia.

The Fredonia tornado wreaked havoc on a new center pivot at the edge of town.

## Date of annual 700 Springs Tour Announced

The Kimble County Historical Commission announced this week that Mr. Lee Pfluger has once again graciously invited the general public to his 700 Springs Ranch on Saturday, April 16<sup>th</sup>, 2016.

Seven Hundred Springs are one of the headwater springs of the South Llano River. A visit to these springs is an unforgettable experience for the entire family.

Additional details will follow in forthcoming newsletters.

## The Uplands to the Rivers and Springs April 30th

### Jim Stanley at Kerr Wildlife Management Area

Join the Alliance and noted land stewardship author Jim Stanley **on April 30<sup>th</sup>, 2016** from 1-4 pm at the Kerr Wildlife Management Area (WMA) as we explore firsthand how what we do on the land can help (or hinder) our rivers and springs. The event is FREE.
